INTRODUCTION TO
SEGi UNIVERSITY
& COLLEGES

Established for more than 46 years, SEGi has equipped graduates from diverse backgrounds with exceptional foundations for career achievement and personal success.

SEGi first opened its doors as Systematic College in 1977 in the heart of Kuala Lumpur's commercial district, offering professional qualifications. Since then, SEGi has experienced significant growth by adapting and catering to an increasing demand for higher academic and professional qualifications in Malaysia.

Today, SEGi is one of the largest private higher education providers in Malaysia and serves more than 18,000 students through its five major campuses located in Kota Damansara, Kuala Lumpur, Subang Jaya, Penang and Kuching. With programmes tailored to meet both industry and student needs, SEGi graduates have easily found employment and many have gone on to become leaders of their respective industries.

TODAY'S GRADUATES, TOMORROW'S EDUCATORS

QS STARS

The QS Stars™ rating system has been operated by the QS Intelligence Unit, the independent compiler of the QS World University Rankings® since 2004. The system evaluates universities across various important performance indicators as set against pre-established international standards. By covering a broader range of criteria than any world ranking exercise, QS Stars™ shines a light on both the excellence and the diversity of the rated institution.

QS Overall OUTSTANDING ★★★★★+

"Education is the most powerful weapon to change the world." (Nelson Mandela, 2003) Quality education is one of the Sustainable Development Goals (SGDS) adopted by the United Nations to ensure inclusive and equitable education and promote life-long learning opportunities for all.

A pioneer and trusted provider of early childhood education programmes, producing thousands of highly qualified early childhood practitioners since 1999, SEGi was appointed the champion for Early Childhood teacher training by PEMANDU in 2010 for the National Key Economic Area (NKEA) Entry Point Project (EPP) 2.

Our students are exposed to a myriad of key issues that are relevant to the future planning of Early Childhood Education in the country. Therefore, they are high in demand locally and abroad, including Singapore. Our strong links with more than 100 local and international Early Childhood Education agencies provide students and graduates ready access to internship and employment opportunities. Apart from Early Childhood Education, we also offer other specialisation fields that are linked to the teaching profession, such as TESL, Special Needs Education and Counselling. Students also have the opportunity to further their studies in this field at the post-graduate level.

The Bachelor of Education (Hons) programme is aimed at preparing students to meet the demands in the teaching profession for both public and private educational institutions. Thus, the programme provides an excellent opportunity for non-graduate teachers, school-leavers, and those interested in joining the teaching profession to be better equipped with a solid command of the knowledge and skills required for an educator.

Graduates of this programme will have an understanding of the history, philosophy, systems, practices, and challenges of educational development. The programme will enable scholars to develop competency in identifying the nature of learning experiences and problems faced by students, and to be professionally engaged in the teaching-learning processes and experiences, curriculum planning, aspects of educational institution management, and development of the profession. We offer 4 specialisations:

- • Early Childhood Education   • Special Needs Education   • TESL   • Guidance & Counselling
